

# Locating Devices

## STANDARD LOCATIONS

Standard dowel and key locations are located parallel to the longest dimension ("P") for positive alignment.

## HOW TO ORDER

Use code — DS, F1, or F2 after item ordered.

Please specify locating devices by the following designations:

DS = Dowel Slot = .125 Dia.

F1 = Single Flat  $\left(\frac{D}{2} - .0625\right)$

F2 = Double Flat  $\left(\frac{D}{2} - .0625\right)$

All locating devices will be parallel to the longest dimension.

Special locations or devices will be furnished if fully dimensioned print is provided.
