Leadership Changes Promote Continued Growth For Oberg Industries

FREEPORT, PA – Oberg Industries, a solutions-oriented manufacturing partner for precision metal components and assemblies, has announced today changes in its leadership team that will further enhance the company's focus on growth within its target markets as well as enhanced delivery and quality products for its customers. Oberg will mark its 71st year in business this July.

The company has promoted **Mark Paolillo** to Chief Executive Officer, overseeing the strategic direction of Oberg Industries and Oberg Medical. Mark began his career with Oberg Industries 27 years ago as an apprentice toolmaker, earning his Journeyman Certificate in 1996, then advanced into project and account management positions. Mark has held the position of Director of Sales since 2010, including the responsibility of directing the Quotations and Customer Service departments.

Mark Paolillo

Also promoted was **Jay Policastro** to Chief Commercial Officer with the responsibility of overseeing customer interface activities for both Oberg Industries and Oberg Medical. Since 2017, Jay has been responsible for leading the strategic planning and execution of the company's medical device manufacturing division.

Jay Policastro

Cliff Forrest, chairman and owner of the company, said "I am committed to Oberg's employees and our customers and look forward to supporting Mark and Jay in their new roles with the necessary capital to acquire the best assets and tools to ensure Oberg's industry leadership."

About Oberg Industries
