

Oberg QUICK FACTS

Oberg Industries is a global contract manufacturer producing precision machined and stamped metal components, tooling and assemblies for some of the world's most recognized companies. Through ingenuity and collaboration, we develop unique solutions to give you a competitive advantage with improved precision, efficiency and output.

Facilities

- Founded in 1948
- 700+ skilled employees
- Manufacturing facilities in Pennsylvania, Illinois and Connecticut
- 450,000+ sq. ft. manufacturing space
- 80,000 sq. ft. facility dedicated to precision machining
- New 75,000 sq. ft. facility in Chicago dedicated to precision machining and medical device manufacturing

New Product Development Support

- Design-for-manufacturability assistance
- Custom assembly equipment for start-up volumes
- Dedicated, highly-skilled personnel
- Dedicated and duplicated milling, turning, and inspection equipment
- Quick turnaround prototype development

Market Focus

Provide manufacturing solutions to manufacturers in a variety of markets:

- | | |
|----------------------------|-----------------------|
| • Aerospace | • Medical |
| • Energy | • Metal Packaging |
| • Automotive | • Defense |
| • Housing and Construction | • Consumer/Industrial |

Complex Part Production

- Give us your biggest challenge
- Typically produce complex geometries with minimal setups
- Low to high volume production
- Adherence to tightest tolerances

Specialized Finishing Solutions

- Quickly grind difficult-to-machine materials without heat, burrs or mechanical stress
- Superior surface treatments and preparations to deliver a pristine finish

Machining & Stamping Wide Range of Metals

- | | |
|-------------------|-------------------|
| • Stellite™ | • PEEK |
| • Molybdenum | • Toughmet® 3 |
| • Cobalt Chrome | • Stainless Steel |
| • Inconel® | • Aluminum |
| • Titanium | • Carbon Steel |
| • Nitinol® | • Hiperc® 50 |
| • plus many more. | |

Certifications

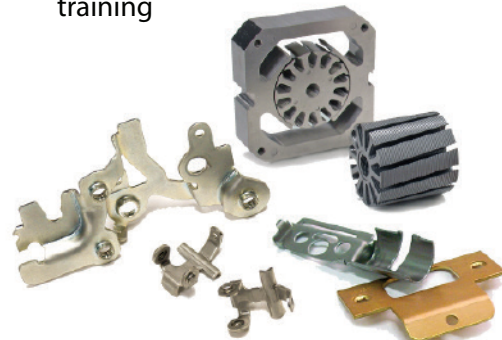

- | | |
|------------------|------------------|
| • ISO 9001:2015 | • FDA registered |
| • AS 9100 Rev. D | • ITAR compliant |
| • ISO 13485:2016 | |

PASSION FOR PRECISION MANUFACTURING

Capabilities and Services

- Project management
- Lean manufacturing focus
- Supply chain management
- 350+ manufacturing centers, such as: multi-axis machining, turning, EDM, MDP*, grinding, and lapping
- Tooling design, manufacturing, and servicing
- Production machining
- Production metal stamping
- Many in-house secondary processes
- In-house state and federal approved competency-based apprentice training

What Customers Are Saying

- "Everything that I have outsourced from Oberg was always made to specified tolerance and with precision."
- "I've found Oberg easy to work with and very reliable."
- "Fast, flexible. New product development support is critical for us."
