

Oberg QUICK FACTS

Oberg Industries specializes in developing innovative manufacturing solutions using advanced manufacturing practices and cutting-edge technologies to provide our customer partners with a competitive advantage.

Facilities

- Founded in 1948
- 900+ skilled employees worldwide
- Manufacturing operations in Pennsylvania, Illinois and Costa Rica
- Over 500,000 sq. ft. of manufacturing space
- New 70,000 sq. ft. facility dedicated to precision machining

New Product Development Support

- Design-for-manufacturability assistance
- Custom assembly equipment for start-up volumes
- Dedicated highly skilled personnel
- Dedicated and duplicated milling, turning, and inspection equipment
- Quick turn around prototype development

Market Focus

Provide manufacturing solutions to manufacturers in a variety of markets:

- Aerospace
- Medical
- Energy
- Metal Packaging
- Defense
- Consumer/Industrial
- Automotive
- Housing and Construction

Metallforming Pioneer Award Winner

Complex Part Production

- Give us your biggest challenge
- Typically produce complex geometries with minimal setups
- Low to high volume production

MDP® Only From Oberg

- Quickly grind difficult-to-machine materials without heat, burrs, or mechanical stress
- Superior surface finishes as ground without additional processing needed

Additive Manufacturing Solutions

- Working with customers to produce "Designed for Additive" parts
- Combining multiple parts into a single component

Certifications

- ISO 9001:2015
- FDA Registered
- AS 9100 Rev. D
- ITAR registered
- ISO 13485:2016

PASSION FOR PRECISION MANUFACTURING

Capabilities and Services

- Project management
- Lean manufacturing focus
- Supply chain management
- 350+ manufacturing centers, such as: multi-axis machining, turning, EDM, MDP, grinding, and lapping
- Tooling design, manufacturing, and servicing
- Production machining
- Production metal stamping
- Many in-house secondary processes
- In-house state and federal approved competency-based apprentice training

What Customers Are Saying

- "Everything that I have outsourced from Oberg was always made to specified tolerance and with precision."
- "I've found Oberg easy to work with and very reliable."
- "Fast, flexible. New product development support is critical for us."
